Press Release

Model 6800 High Speed Front & Back Wrap Labeler

Labeling Systems Inc. (LSI) introduces the Model 6800 High Speed Front & Back Wrap Labeler. This labeler features a dual belt infeed system that eliminates change parts and ensures proper spacing. This unit features speeds to 300 products per minute on front and back and 150 products per minute on 10" long wrap-around labels. Stepper Motor Label Feeds give high accuracy and high reliability. 20" O.D. Supply Rolls give long running time. Microprocessor Controls allow Push Button Setup for quick change over.
